

A Bicycle Accident

The script for the MP3. This can be used for listening comprehension.

Doctor: Good morning.

Patient: Hello, doctor.

Doctor: What seems to be the problem today? Do you have a headache?

Patient: No, today my head is fine. Actually, my knee hurts.

Doctor: Oh, no. What happened?

Patient: Yesterday I was riding my bicycle, and I got in an accident.

Doctor: Hmm... Please show me your knee.

Patient: Here.

Doctor: Ah...

Patient: Is it bad?

Doctor: No. This is not a serious injury. You'll get better soon.
Put ice on your knee every morning and evening for the next week.
Also, don't ride your bicycle for a week. Can you use the bus instead?

Patient: Yes, I can do that. Thank you, doctor.

Doctor: You're welcome. Take care.
